### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Prosecution has hereby been reopen in view of newly found references Buckner (USPN 5735544) and Piccini (USPN 4378113). Action on the merits hereby follow.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Buckner (USPN 5735544).

Regarding claim 6, Buckner discloses a device 10 using a handheld implement having a grip portion, the device comprising a handle shaped like the grip portion of the implement, the handle having first and second ends, and a weight 12 on the second end of the handle, the center of mass of the device being less than about 13 inches from the first end of the handle, and wherein the device weighs more than the hand held implement normally used for writing.

Claim 6 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Piccini (USPN 4378113).

Regarding claim 6, Piccini discloses a sport specific training and conditioning device for a sport using a handheld implement having a grip portion, the device comprising a handle shaped like the grip portion of the implement, the handle having first and second ends, and a weight on the second end of the handle, the center of

mass of the device being less than about 13 inches from the first end of the handle. Piccini does not make clear that the device may weight more than the actual implement in the sport but notes that the implement can be filled to that desired by the user. Therefore, one having ordinary skill in the art would have found it obvious to have the implement weight more than that of the implement used in the actual sport in order to strengthen the users muscles.
